

RISHU GUPTA

+91-7903253649 | rishuguptark@gmail.com | <https://Github.com/rishuGuptaRk> | <https://rishu-gupta-portfolio.vercel.app>

Objective:

Computer Science undergraduate with hands-on experience building real-time and full-stack applications. Strong foundation in data structures, databases, and object-oriented design. Passionate about developing scalable, user-focused software solutions.

Education:

Siliguri Institute of Technology

Siliguri, West Bengal, India

Bachelor of Technology in Computer Science and Engineering (2022-2026)

CGPA : 7.0

Bihar Board of Open Schooling and Examination (2022)

Class 12th

Percentage: 70.4

Central Board of Secondary Education

Class 10th

CGPA : 10

Skills:

- **Programming Languages:** Java, C++, C
- **Database:** SQL, DBMS, MongoDB, firebase
- **Web Technologies:** HTML | CSS | JavaScript | React.Js | Node.js | Express.Js | Socket.io
- **Tools:** Git, MySQL
- **Relevant Courses:** Data Structure and Algorithm, Computer Networking, Operating System, Object Oriented Programming
- **Soft Skills:** Analytical Thinking, Team Collaboration, Problem-Solving

Projects

Watch Party/Sync Social Video App (2025)

- Developed a real-time watch-party application enabling multiple users to watch videos together with synchronized playback.
- Implemented live synchronization and room-based architecture to manage users, sessions, and shared viewing states reliably.
- Developed the complete frontend, delivering a responsive interface, dynamic functionality, and seamless API integration for an improved user experience.
- **Tech:** Next.js, Firebase Realtime Database (Based on WebSocket), NoSQL DB, Genkit AI

Full-Stack E-commerce Website (2024)

- Led a team to build a full-stack shopping platform with cart, payment, and authentication features.
- Implemented secure authentication, efficient routing, and optimized database queries to improve performance and reliability.
- Developed the complete frontend, implementing responsive UI, dynamic features, and seamless API integration for an improved user experience.
- **Tech:** React.js, Express.js, Node.js, MongoDB

AI-Powered DSA Prep Hub with AI Chat Assistant (2025)

- Developed an AI-powered learning platform that generates personalized study plans and provides intelligent explanations for complex DSA topics.
- Built a smart code analysis system capable of compiling, debugging, and suggesting improvements, helping users strengthen problem-solving skills.
- Designed an admin dashboard to manage topics and track user progress, along with an AI chat assistant for quick conceptual understanding and guidance.
- **Tech:** Next.js, Firebase Realtime Database, Genkit AI, Google Gemini (Core AI) API

Library Management System

- Collaboratively developed a user-centric system featuring authentication, book cataloguing, and borrowing workflows, designed with strong object-oriented principles.
- Built an intuitive admin dashboard for seamless users and book management.
- Ensured modular code structure for scalability and ease of future enhancements.
- **Tech:** Object Oriented Programming Using Java

Certifications and Training

- **C & C++ Programming (2023), Pitronix Solution** - Practical training in core programming, memory management basics, object-oriented programming, and problem-solving techniques.
- **MERN Stack Development Training (2024), Ardent Computech Pvt Ltd** - Built full-stack applications involving authentication workflows, RESTful services, frontend-backend integration, and database management.
- **J.P. Morgan - Software Engineering Job Simulation (2025), Forage** - Hands-on job simulation covering project setup, REST APIs, Kafka integration, and database connectivity in enterprise-style applications.
